Graded on December 27, 10:30 am CST ○ Correct! 1 You have 4 consumers listening for messages on a stream using blocking XREAD calls. How are messages delivered to these 4 consumers? Choose one answer: Each consumer receives every 4th new message in a round-robin pattern. ✓ All 4 consumers receive every message. ← Previous Next → **Modules** >> Course overview **C** Lesson Course overview **C** Lesson **Environment setup** The producer
