Redis streams producers and consumers

Quiz 3 | Redis stream producers and...

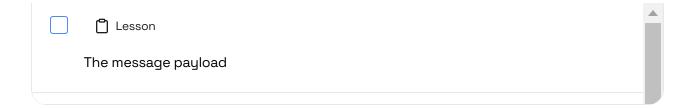

100%

You got 3 out of 3 points. Nice!

Submitted on December 26, 3:56 pm CST Graded on December 26, 3:56 pm CST

- Correct!
- 1 What does the following command do? XTRIM message MAXLEN ~ 1000 Pick one answer.
 - It truncates the stream down to exactly 1000 of the latest messages.
 - It truncates the stream down to approximately 1000 of the latest messages.
 - - It forces the stream to reject messages greater than 1000 bytes in length.
- Correct!
- 2 1 point possible (ungraded) If you delete all messages in a stream using XDEL, does the stream itself still exist? Pick one answer.
 - ✓ Yes, but it's empty.
 - No, because empty keys in Redis are automatically removed. unanswered
- 3 What does the XLEN command return? Pick one answer.

~	The number of messages in a stream	
	The length of a stream in bytes	
	The number of deleted stream messages	
	The number of field-value pairs in each message of the stream
