✅ Correct!

1   Redis tracks the messages delivered to a consumer using the Pending Entries List (PEL). How are entries removed from the PEL? Choose one answer.

⚪ As consumers read them

✓ ⚪ As consumers explicitly acknowledge them using XACK

✅ Correct!

2   Imagine we have a consumer named "myConsumer" working in a consumer group named "myGroup" reading from a stream named "myStream". "myConsumer" needs to know if it has any outstanding messages in its pending entries list.
Which command would the consumer use to get any messages in its pending entry list?
Choose one answer.

⚪ XREADGROUP GROUP myGroup myConsumer STREAMS myStream >

✓ ⚪ XREADGROUP GROUP myGroup myConsumer STREAMS myStream 0

⚪ XINFO CONSUMERS myStream myGroup

⚪ XINFO GROUPS myStream
